

# SCANDINAVIAN YARN DOLL

## Materials:

A book of the height that you want your doll to be  
Scissors • Yarn

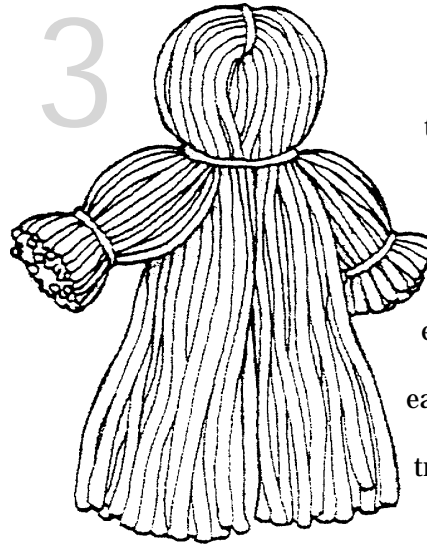

Wrap the yarn around the book at least 35 times.

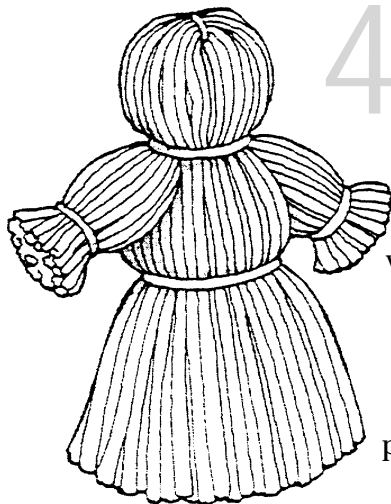

Slide the spool of yarn off the book, then tie a separate piece of yarn around the top end and cut the bottom end.

To make the doll's head, tie a piece of yarn tightly around the yarn to form a "neck."

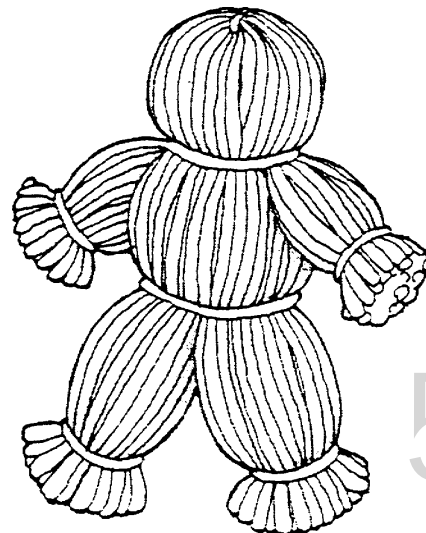

To make the arms, divide the hank in two, and then divide each half in two again. The outside bunches on either side are the arms. Tie each arm at the "wrist" and trim the hands even.

Tie a piece of yarn at the doll's "waist." If you want the doll to be wearing a dress, your doll is done!

If you want the doll to be wearing pants, continue on.

Divide the yarn below the waist in to two equal parts. Tie each bunch at the "ankle." Trim off any excess yarn to even-up the doll's "feet."
